

MEMBERSHIP APPLICATION

Join LIFT – Long Island’s only “hands-on” Technology Organization

LIFT’s mission is to grow the manufacturing and technology businesses of Long Island through hands-on application of Technology, know-how and membership benefits

LIFT GOALS

* Provide direct assistance to any technology-based businesses who are engaged in manufacturing, value-added design and engineering of technology-based products

* Through the LI Manufacturing Extension Partnership’s (MEP), Engineers provide assistance to the region’s manufacturers to assist them to become more competitive in today’s global marketplace.

* Establish LIFT as the center for information and counseling for Long Island’s technology companies by developing aggressive programs on competitiveness, funding sources, technology transfer, commercialization and outreach.

* On its own, and in collaboration with other organizations, promote a business operating environment on Long Island that is conducive to the retention and development of companies and personnel needed to form the basis for a strong local economy

* Expand networking opportunities among local industry, government, economic development organizations and educational institutions.

* Support economic development in technology-based industry through technology deployment.

Long Island Forum for Technology, Inc. (LIFT) is a private not-for-profit organization established in 1976.

LIFT works in cooperation with other organizations that seek improvement of Long Island’s economy and the well being of the nation. *Membership is open to all that have a stake in the economic health of Long Island and who recognize that its future lies in technological development.*

Yes, I would like to become a member of LIFT. Please enroll me in the following category:
